

The 25<sup>th</sup> KOGO Annual Conference 2016

# Emerging Landscape of Genomics and Precision Medicine

September 5–6, 2016

The Korea Science and Technology Center (한국과학기술회관), Seoul, Korea

- Abstract Submission : July 29, 2016
- Pre-Registration : July 29, 2016

## Symposia

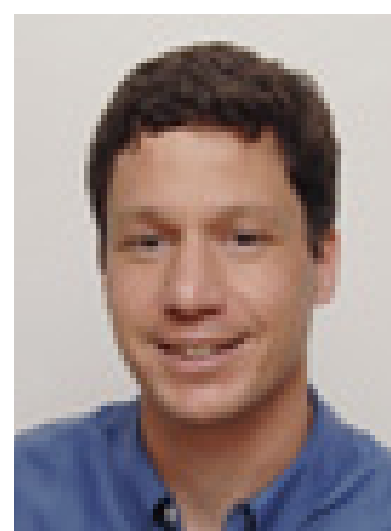

### September 5 (Mon)

- Epigenomics
- Pan Cancer Analysis of Whole Genome and ICGCmed
- Animal Genomics [Joint Symposium with Korea Mouse Phenotyping Center]
- Application of Big Data to Genome Biology
- Host-Microbe Interactomics
- Pharmacogenomics
- Bioinformatics
- Poster Oral Presentation

### September 6 (Tue)

- Medical Genomics [Joint Symposium with Korean Society of Medical Genetics]
- Harmonization of Genomic Medicine and Supercomputing
- Proteomics
- Genomic Evolution
- Cancer Genomics
- Plant Genomics
- Single Cell Genomics
- Genomic Technology

## Plenary Lecture

**Dr. Michael A. White**

UT Southwestern Medical Center, USA

**Harnessing Cancer Genome Diversity for Intervention Target Discovery**

**Dr. Charles Lee**

The Jackson Laboratory for Genomic Medicine, USA

**Establishing a Definitive Standard for Germline Structural Variations Using Multiple Genomic**

**Dr. Jeong-Sun Seo**

Genomic Medicine Institute, Seoul National University College of Medicine, Korea

**De novo Assembly and Complete Phasing of an Asian Diploid Genome for Precision Medicine**

## Program

- Bio Booth Exhibition
- Poster Session
- Lunch Workshop
